INDEX

VOL. XXXIII, 1939-40.

Note.—In this volume two series of numbers are used for pagination, one being the sectional page number and the other the volume page number. The latter only is used in the Index.

- Abdominal surgery**, continuous intravenous anaesthesia for, method of administering (L. C. Rivett and G. Quayle), 631
- Acrocyanosis**, hyperpirosis and multiple arthritis, case of, 332
- Acustico-lateral sense organs in fishes**, mechanism of, with special reference to problems in the physiology of semi-circular canals (A. Sand), 741
- Adams, A. W.**—Discussion on cases of megalo-ureter, 592
- Adenoids** and tonsils in children, indications for removal of, discussion on, 347
- Adrenaline**, action of, in anxiety (D. Richter), 615
- Airey, F. S.**—? Granuloma annulare, ? Lupus vulgaris, 582
- Albers-Schönberg disease** (osteopetrosis) in infant of 2 years, 629
- Allechin, F. M.**—Discussion on treatment of metastases, 323
- Alston, J. M.**—Discussion on Salmonella infections, 369
- Anaemia** with splenomegaly, 372
- Anaesthesia** for children, yesterday and to-day in (H. Sington), 25
intravenous, continuous, for abdominal surgery, method of administering (L. C. Rivett and G. Quayle), 631
- Andrewes, C. H.**—Latent virus infections and their possible relevance to the cancer problem, 75
- Angina pectoris**, surgical treatment of, discussion on, 535
- Angiomatosis**, case of, 581
- Animal viruses**, indigenous, 78
- Animals** and man, demyelinating diseases of, 162
nervous affections in, discussion on, 161
virus diseases of, 161
intracranial tumours in, 170
nervous system of, atrophy of, 169
malformations of, 169
pigmentations, 169
pachymeningitis spinalis ossificans in, 170
psychopathological diseases in, 167
- Antiseptics**, action of, specificity of, 487
and chemotherapy (A. Fleming), 127
effect of, on wounds, discussion on, 487
practical application of, 492
so-called, physiological action of, 492
- Anxiety**, action of adrenaline in (D. Richter), 615
- Aqueduct** of Sylvius, stenosis of (J. Penny-backer), 507
- Arthritis** and arthrosis, 709
chronic, radiological syndromes in, 717
special X-ray syndromes in various joints, 722
suggestions for improvement in, 724
value of X-rays in differential diagnosis, 723
X-ray diagnosis in (J. Forestier and P. Robert), 707
inflammatory, radiological signs in, 710
multiple, acrocyanosis and hyperpirosis, case of, 332
rheumatoid type of (Still's disease) treated by splenectomy, 415
X-ray diagnosis in, conditions required for correct interpretation, 708
difficulties and limitations in, 708
- Arthrodesis** by drilling the articular surface of a joint, 150
of flexed joints by removal of wedge from convexity, 150
- Arthrosis**, and arthritis, 709
(osteo-arthritis) radiological signs in, 713
- Asphyxia**, traumatic, with optic atrophy, 516
- Atkins, J. B.**—Acute toxic polyneuritis, 626
Severe gastro-enteritis: recovery after mas-toidectomy, 626
- Atrophy**, congenital, with reticular pigmentation, 578
- Atropine**, use of, in premedication, 286
- Audiometric** tests and the capacity to hear speech, discussion on, 237
- Aural surgeon**, syphilis as seen by the (T. R. Rodger), 87
- Australian aborigines**, the teeth of (F. St. J. Steadman), 29
- Auto-anaesthetic** apparatus, 636
- Avery, H.**—Four cases of familial endocrinopathy, 414
- Bach, F.**—Rheumatoid type of arthritis (Still's disease) treated by splenectomy, 415
- Bacteria**, lysogenic, 77
- Baldwin, A.**—Discussion on the protection of the soldier in warfare, 612
- Bamber, G.**—Connective tissue naevus, 577
- Banks, H. S.**—Discussion on modern methods in treatment of cerebrospinal fever, 555

- Barrington-Ward, Sir Lancelot**.—Discussion on the indications for removal of tonsils and adenoids in children, 347
- Basal narcosis**, by mouth, 290
contra-indications to, 291
intravenous injection, 291
rectal administration, 291
- Bateman, G. H.**.—Discussion on transmeatal approach to the mastoid, 198
- Bayon, H. P.**.—Trotula and the ladies of Salerno: A contribution to the knowledge of the transition between ancient and mediæval physick, 471
- Bickerton, R. E.**.—Discussion on gas injuries to the eye, 227
- Binocular loupes**, 550
- Bittner's** experiments with breast-carcinoma in mice, 83
- Blair, D.**.—Discussion on clinical applications of electrically induced convulsions, 274
- Bombing** of cities, casualties due to, organization of hospital services for, based on experience gained in Barcelona—with special reference to the classification of casualties (J. Trueta), 13
- Bond, L. T.**.—Discussion on pathology of cervicitis, 788
- Bond, Stanley A.**.—Radio-opaque calcification of Fallopian tubes with tubal patency, 735
- Bourne, Aleck**.—Discussion on pathology of cervicitis, 787
- Bourne, G.**.—Discussion on surgical treatment of angina pectoris, 535
- Bowlby, J.**.—Discussion on the problems of the evacuee child, 385
- Bradley, W. H.**.—Discussion on the indications for removal of tonsils and adenoids in children, 355
- Brain, injuries to, and their sequelæ** (J. G. Danson), 51
cerebral contusion, 53
concussion, 51
major sequelæ, 59
residual symptoms, 57
stages of recovery from, 55
treatment of, 58
showing cerebral hæmorrhage in case of spontaneous labour (F. J. Browne), 736
tissues *in vitro*, metabolism of, effect of certain antiseptics on, 498
- Brand, G. B.**.—Discussion on transmeatal approach to the mastoid, 195
- Breast**, carcinoma of, case of, 413
- Browne, F. J.**.—Brain showing cerebral hæmorrhage in case of spontaneous labour, 736
and **Dodds, Gladys H.**.—Chronic nephritis in pregnancy, 737
- Bull, J. W. D.**.—Radiological diagnosis of chronic subdural hæmatoma, 203
- Burrows, H. Jackson**.—Treatment of ununited fractures by bone grafting without resection of bone ends, 157
- Butler, E. C. B.**.—A review of the late results of ulcerative colitis in 89 cases admitted to the London Hospital, 648
discussion on clinical experiences with sulphathiazole in therapy of staphylococcal infections, 677
- Butler, E. N.**.—Observation units, 725
- Cambridge Medical School, W. H. Gaskell and (Sir W. Langdon-Brown)**, 1
- Cameron, H. C.**.—Discussion on the problems of the evacuee child, 374
- Cancer** problem, latent virus infections and their possible relevance to (C. H. Andrewes), 75
- Canine encephalitis**, 171
- Canonic, A.**.—Apparatus for the administration of cyclopropane and oxygen, 636
- Capon, N. B.**.—Discussion on intrathoracic tuberculosis in childhood, 619
- Cashell, G. T. W.**.—Malignant change in case of melanosis of conjunctiva, 545
- Cass, E. E.**.—Film illustrating Gunn's syndrome, 516
- Cassidy, Sir Maurice**.—Discussion on surgical treatment of angina pectoris, 543
- Casualties** due to the bombing of cities, difference from front-line casualties, 15
organization of hospital services for, based on experience gained in Barcelona—with special reference to the classification of casualties (J. Trueta), 13
- Cataract** in adult rickets (osteomalacia) (J. P. Maxwell), 777
- Cawthorne, T.**.—Discussion on audiometric tests and the capacity to hear speech, 245
on transmeatal approach to the mastoid, 201
- Centenarian**, engraved portrait of (Sir StClair Thomson), 774
- Cerebral abscess** due to Pfeiffer's bacillus—6 years after Pfeiffer's bacillus meningitis, 628
contusion in brain injuries, 53
- Cerebrospinal fever**, modern methods in treatment of, discussion on, 555
- Cervicitis**, pathology of, discussion on, 787
- Chemotherapy**, antiseptics and (A. Fleming), 127
in surgery (N. C. Lake), 601
- Childhood**, intrathoracic tuberculosis in, difficulty of providing institutional treatment, 622
discussion on, 619
- Children's** anaesthesia, yesterday and to-day, in (H. Sington), 25
- Cholecystitis**, discussion on, 315
operative findings in the poorly functioning and non-functioning cases, 319
- Choroid**, malignant melanoma of, ? case of, for diagnosis, 515
- Christie, R. V.**.—Discussion on indications for oxygen therapy and methods of administration, 478
- Cinebronchography** (J. E. G. McGibbon), 356
- Civatte's** disease, case of, 585
- Cleminson, F. J.**.—Discussion on mechanism of acoustico-lateral sense organs in fishes, with special reference to problems in the physiology of semicircular canals, 748
- Colebrook, L.**.—Discussion on treatment of war fractures by the closed method, 72
- Colitis**, ulcerative, idiopathic, and its sequelæ, surgical treatment of, discussion on, 637
- Colledge, L.**.—Discussion on the position of radiotherapy in the treatment of malignant disease of upper respiratory and alimentary tracts, excluding the tongue and oesophagus, 665
- Collier, J.**.—Discussion on the indications for removal of tonsils and adenoids in children, 351

- Colon**, resection of, extra-abdominal (V. Z. Cope), 249
variations in technique, 256
- Colyer**, Sir Frank.—Variations of the teeth of Preuss's Colobus, 757
- Concussion** in brain injuries, 51
- Conjunctiva**, melanosis of, malignant change in case of, 545
- Convulsions**, electrically induced (F. Golla, W. Grey Turner and G. W. T. H. Fleming), 261
clinical applications of (W. H. Shepley and J. S. McGregor), 267
- Cope**, V. Z.—Cyst of left iliac bone, 334
extra-abdominal resection of colon, 249
- Corbett**, R.—Discussion on the surgical treatment of idiopathic ulcerative colitis and its sequelæ, 647
- Corner**, B. D.—Bilateral artificial pneumothorax for pulmonary tuberculosis 2 years after treatment was commenced, 626
Staphylococcus aureus septicæmia with recovery, treated with M & B 693, 627
- Corpus luteum** deficiency as cause of sterility, 523
- Cowell**, E. M.—Discussion on effect of antiseptics on wounds, 501
- Creak**, E. M.—Discussion on the problems of the evacuee child, 377
- Cruise**, Sir Richard.—Discussion on the protection of the soldier in warfare, 611
- Culpin**, M.—Appreciation of Sigmund Freud, 115
- Currie**, J. A.—Case of megaloureter, 587
- Curtis**, R. H.—Discussion on observation units, 734
- Cyclopropane** and oxygen, administration of, apparatus for, 636
- Daggett**, W. I.—Discussion on transmeatal approach to the mastoid, 200
- Danson**, J. G.—On injuries to the brain and their sequelæ, 51
- Davis**, E.—Chronic purpura following rheumatic fever, 331
- Davis**, E. D. D.—Discussion on syphilis as seen by the aural surgeon, 96
on the protection of the soldier in warfare, 613
- Deafness**, functional, diagnosis of, 465
discussion on, 463
treatment of, 467
hysterical, 463, 464
diagnosis of, 465
treatment of, 467
of later onset in hereditary syphilis, 91
- del Rio-Hortega**.—Discussion on tumours of optic nerve, 686
- Demyelinating** diseases in animals and man, 162
- Denny-Brown**, D. E.—Discussion on radiological diagnosis of chronic subdural hæmatoma, 222
- Dentine**, entrance of nerves into, recent histological and other researches on, critical review of (A. W. Wellings), 563, 570
- Diaphragm**, right half of, congenital eventration of (specimen), 629
- Diggle**, F. H.—Discussion on the position of radiotherapy in the treatment of malignant disease of upper respiratory and alimentary tracts, excluding the tongue and œsophagus, 669
- Dixon**, G. J.—Acrocyanosis, hyperpiesis, and multiple arthritis, 332
- Dodds**, Gladys H., and **Browne**, F. J.—Chronic nephritis in pregnancy, 737
- Dodds**, R. L.—Clinical study of 40 consecutive cases of extra-uterine pregnancy, 783
- Dorling**, G. C.—Congenital megacolon treated by high spinal anaesthesia, 333
- Dowling**, G. B.—Erythroderma with deep pigmentation, 585
- Doynes**, P. G.—Jaw-winking, 514
- Drugs**, British, recently introduced, uses of, in urology, discussion on, 600
- Dukes**, E.—Discussion on the problems of the evacuee child, 384
- Dundas-Grant**, Sir James.—Discussion on audiometric tests and the capacity to hear speech, 246
- Dunhill**, Sir Thomas.—Discussion on the protection of the soldier in warfare, 612
- Dysplasia**, genital, case of, 626
- Ear** conditions in acquired syphilis, 93
hereditary syphilis of, 89
syphilis of, diagnosis of, 92
- Eastwood**, W. J.—Discussion on fractures and dislocations of the cervical vertebrae, 651
- Edwards**, G.—Philip Syng Physick, 1768-1837, 145
- Edwards**, Tudor.—Discussion on cystic disease of lung, 340
- Ellis**, M.—Discussion on mechanism of acustico-lateral sense organs in fishes, with special reference to problems in the physiology of semicircular canals, 747
- Ellis**, V. H.—Tuberculosis of gluteal bursa, 530
- Ellman**, P.—Discussion on cystic disease of lung, 341
- Enamel**, calcification of, degree of, 394
constitution of, 387
structure and formation, recent histological and other researches on, critical review of (A. W. Wellings), 563, 564
structure of, 390
X-ray examination of (J. Thewlis), 387
- Encephalitis**, canine, 171
- Endocrinopathy**, familial, four cases of, 414
- Engravings**, two (dated 1802) of the drinking and dipping wells in Hyde Park (Sir StClair Thomson), 774
- Erythema**, persistent (case for diagnosis), 580
- Erythroderma** with deep pigmentation, case of, 585
- Evacuation**, epidemiological preparations for, 400
epidemiology of, contagious diseases, 409
exodus, 401
infectious diseases, 405
mortality from certain infectious diseases, 409
numbers involved, 402
preparation for, 399
some epidemiological observations on the first four months (J. A. Glover), 399
the drift back, 404
- Evacuee** children, has the scheme been successful? 384

- Evacuee children, arrangements for medical examination of, 381
 problems of, discussion on, 374
 suggestions for future evacuations, 384
- Evans, A. B.—Case of congenital abnormality of uterus, 526
- Evans, C.—Discussion on surgical treatment of angina pectoris, 543
- Everidge, J.—Discussion on cases of megaloureter, 593
 nephro-ureterectomy, 295
- Ewing, A. W. G.—Discussion on audiometric tests and the capacity to hear speech, 237
- Ewins, A. J.—Discussion on clinical experiences with sulphathiazole in therapy of staphylococcal infections, 673
- Extrasellar extensions of pituitary adenomas (G. Jefferson), 433
- Eye, gas injuries to, discussion on, 225
- Eyre, J.—Discussion on gas injuries to the eye, 234
- Falconer, M. A.—Discussion on effect of antiseptics on wounds, 494
- Fallopian tubes, non-patent, effects of follicular hormone on, 519
 radio-opaque calcification of, with tubal patency (S. A. Bond), 735
- Ferguson, J.—Discussion on the problems of the evacuee child, 380
- Fertility, induction of, by the injection of gonadotrophic preparations (A. S. Parkes and J. Hammond), 483
- Findlay, G. M.—Discussion on nervous affections in man and animals, 161
- Finzi, N. S.—Discussion on recently introduced British drugs and their uses in urology, 600
 on the position of radiotherapy in the treatment of malignant disease of upper respiratory and alimentary tracts, excluding the tongue and œsophagus, 669
 on treatment of metastases, 328
- Fishes, mechanism of acustico-lateral sense organs in, with special reference to problems in the physiology of semicircular canals (A. Sand), 741
- Fitzwilliams, D. C. L.—Carcinoma of breast, 413
 Spasm of œsophagus, 334
- Fleming, A.—Antiseptics and chemotherapy, 127
 discussion on effect of antiseptics on wounds, 487
- Fleming, G. W. T. H.—Electrically induced convulsions, 261, 265
- Foot-gear (J. B. Menzell), 105
 fitting, 109
 heel-wedges, 108
 the heel, 106
 the sole, 105
 the upper, 109
- Forbes, R. J.—Imhotep, 769
- Forestier, J. and Robert, P.—X-ray diagnosis in chronic arthritis, 707
- Forrester-Brown, M.—Simplification of technique in some joint operations, 149
- Fowl paralysis (neurolymphomatosis) in relation to cancer, 82
- Fowls, tar sarcomata in, 82
- Fractures and dislocations of the cervical vertebrae, discussion on, 651
 treatment of, intramedullary Kirschner wires in (C. Lambrinudi), 153
 ununited, treatment of, by bone grafting without resection of bone ends (H. J. Burrows), 157
 war, treatment of, by the closed method (J. Trueta), 65
 prevention and treatment of local and generalized infection, 66
 reduction of fractures and immobilization without deformity, 69
- Fraenkel, E. M.—Recurrent tumour in case of sarcofibroid of small intestine, removed in 1937, 413
- Freud, Sigmund.—Appreciations of, 111
- Frey, H.—Discussion on audiometric tests and the capacity to hear speech, 247
 on mechanism of acustico-lateral sense organs in fishes, with special reference to problems in the physiology of semicircular canals, 749
- Fripp, A. T.—Congenital dislocation of left hip. Perthes' disease of right hip, 530
 hyperparathyroidism in a patient with infantile coxa vara, 531
- Gabriel, W. B.—Discussion on the surgical treatment of idiopathic ulcerative colitis and its sequelæ, 643
- Ganglion in sheath of the lateral popliteal (common peroneal) nerve, case of, 532
- Garrod, L. P.—Discussion on effect of antiseptics on wounds, 497
- Gas injuries to the eye, discussion on, 225
- Gaskell, W. H., and the Cambridge Medical School (Sir W. Langdon-Brown), 1
- Gastro-enteritis, severe, recovery after mastoidectomy, 626
- Gerrie, J.—Discussion on transmeatal approach to the mastoid, 199
- Gillespie, H. W.—Discussion on cholecystitis, 322
- Gillies, Sir Harold.—Discussion on the protection of the soldier in warfare, 611
